At a meeting of the Board of Direction of the Mercantile Library, had a meeting of the Board of Direction of the Mercantile Library, had last evening, the following report in relation to the subject of the removal of the Library was presented:

The Committee appointed to confer with the Trustees of the Chiaton Hall Association would respectfully submit the following Report:

Trustees.

This statement is to the following effect: That for some years past the necessity of removal has been urged upon them, on occount of the want of suitable accommodations, under the present arrangements. That previous to last year they felt that their pecuniary position would not warrant a removal; the Association previous to that time being in debt.

debt.
That in February and October of 1852 they received communications from the Board of Direction of the Mercantile Library Association of that year in favor of removal. That in November last they received, through the said Board, the fellowing copy of Resolutions passed at a special meeting of the members of the Mercantile Library Association, called in conformity with its charter, and held on the 4th of that month!

the members of the Mercannie Library Association, called in conformity with its charter, and held on the 4th of that month:

Resolved, "That in view of the gradual change of residence which has taken place to the upper sections of the city, it is expedient, in the opinion of this meeting, that a new location should be secured to the Library as soon as practicable in the vicinity of Broadway, not below Canal at nor above Astor-place."

Resolved, "That the Board be requested to take such measures as will be best calculated to carry the foregoing resolutions into effect."

The Trustees forther inform your Committee that they acted immediately upon these resolutions, believing them to be the expression of the entire membership, never having heard of or received a report to the contrary.

That they endeavored to obtain every piece of property suitable for the use and purposes of the Mercantile Library Association that was offered for sale within the limits of the resolution presented to them; and after using their utmost exertions to obtain a location unidway between the limits designated in the resolution, they purchased for the use of the Mercantile Library Association the property known as the "Astor place Opera House," as being within the limits of the Mercantile Library Association the property innown as the "Astor place Opera House," as being within the limits defined, and as being, in their united opinion, the best location in the City of New York for the promotion of the welfare of the Mercantile Library Association, which property is now held by them individually, subject to the action of your Board.

In relation to this matter the Committee received the following communication from the Secretary of the Board of Trustees of the Clinton Hall Association, at their last meeting, I beg to furnish you with the following extracts of the Potron Hall Association, at their has meeting, I beg to furnish you with the following extraction from the Board of Directors of the Mercantile Library Association.

Six: In confo

such explanation as our interview of yesterday enable you to make.

At a meeting of the Trusces of the Clinton Hall Association, held on the 8th January, 1833, the following Resolution was unanimously adopted: That Mesars Coffin and Hunt be appointed a Committee to inspensale for the purchase of the linking Opera House. And at a subsequent meeting the Committee reported that in order to secure the property, they, the Committee, and as a subsequent meeting the Committee reported that in order to secure the property, they, the Committee, and and executed an agreement of sale and purchase, with the owners thereof. The report of the Committee were innited, and had executed an agreement of sale and purchase, with the owners thereof. The report of the Committee was accepted, and their action approved. Trusting that this may meet all the points of the subject upon which you are appointed to obtain information.

I remain yours respectfully.

CHAS O. MILNOR, Secretary.

And further, it is the opinion of your Committee, that the Trustees of the Clinton Hall Association have done all in their power to advance the best interests of your Institution. That they have sated in good faith, and with sound judgment, and are deserving of the entire confidence and import of your Beard, and that your opinion of their actions should be expressed not only by your unanimous consent to support them in the generous position which they have taken toward your Association, but by an insertion of the same in public print, that the mercantile community may properly undertained the position of Clinton Hall Association in regard to the Mercantille Library Association.

All of which is respectfully submitted:

J. P. HALSTED, Chairman.

its cordial and medicinal properties to any Holland gin heretofore known.

The crude whisky, brandy, and other domestic distilled spirits, which are used in the South and West by all classes, so correctives of had water, are but feebly and partially effective in preventing even those slower and more chronic varieties of disease—intermittent, remittent, and billous fevers, gravel, calculi, and other urinary obstructions, which permanently characterize those fertile districts of our country. Indeed, such liquors frequently aggravate these local maladaes by their permissions effects upon the nervous system and general health of those who are compelled to resort to them, however moderately, and they possess few, if any, directio or cardiac properties calculated to resist or correct the ill effects of such waters. It is supposed that the most specifically injurious ingredient in water flowing through forest regions, or in rivers and streams ted by minor tributaries from woody districts, is humic acid, a result of the eremacausis or decay of vegetable matter, which, in connection with carburcted hydrogen, is also supposed to constitute the malatia, producing intermittent and remittent fevers; and no doubt now remains that it is a local cause of malignant cholers, by its acute action upon the stomach and intestines.

157 To the Traveling Community.—Recommended by the Medical Faculty in New York, Philadelphia and Physicians generally in the United States.—WOLFE'S AROMATIC SCHIEDAM SCHNAPPS.—The vigorous and invariable superiority of WOLFE'S Aromatic Schiedam Schnappe, in all those cases of incipient dropps, kidney complaints, gravel and stone, producing chronic inflammation, growt, rheumatism, general debiity, universally, whenever they could obtain it is now freely admitted by the most distinguished members of the profession and the most distinguished members of the profession and the most eminently successful practitioners in every part of the United States.

The incomparably superior efficacy of the Aromatic Schiedam Schnappe, as thus professionally proved and certified, arises entirely from its infinitely superior quality and distinctive properties. No other Holland gin, of equal purity of rectification, can be obtained, either in the American er foreign markets, at any price. It is manufactured by the proprietor exclusively, at Schiedam, in Holland, by a process peculiar to his own factory. It is flavored and medicated, nat by the common harch herey, but by the choice botanical variety of the aromatic Italian jumiper berry, whose more vinous extract is distilled and rectified with its spiritous solvent, and thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendent in its cordial and medicinal properties to any Holland gin heretofore known.

settine the materia, procuring interior and remines fevers; and no doubt now remains that it is a local cause of malignant cholers, by its acute action upon the stomach and intestines.

Now, the pure spirit and balsamic extract in the Aromatis Schiedam Schnappe exert a powerfully antiseptic action upon substances in a state of acctous decay, as distinctly as an alkali neutralizes on acid. And this is probably the chemical explanation of its inestimable property as a complete preventive and corrective of the ill effects of the impure waters here mentioned. So thoroughly is the reputation of the Aromatic Schiedam Schnapps established in this respect, in the south, Southwest and Western States, that the proprietor could already fill a volume with the medical restimuniate alone, which have been received, of the gratifying fact, independently of those which he has received from his numerous agents and private individuals. And travelers, as fast as they become acquainted with this peculiarly valuable property of the article, neglect not to provide themselves with it as the onlyknown security against those distressing and dangerous derangements of the stomach and bowels which almost inevitably follow the unaccustomed use of the waters of those sections of country.

The Aromatic Schiedem Schnapps can be obtained in cases containing each two dozen bottles; either quarts or pints, according to order. The bottless are neatly labelled and wrapped, and each bear the fac simile of the proprietor's signature, without which the article; unquestionably, spurious. But from the information which the proprietor has received from several parts of the country, he deems it necessary to give the following.

It has been found in many instances that unprincipled persons have been in the practice of buying up the empty bottles bearing these labels, filling them with common gin, and retailing them as the graume article, to the great disappointment and injury both of the purchasers and the proprietor. He, therefore, requests not only that A LARGE FIRST CLASS ORGAN, built for the Cathedral at Cleveland, Ohio, will be publicly exhibited at the manufactory, No. 172 Centre-st, on the afternoots of THURSDAY, FRIDAY and SATURDAY was LIRDAY was LIRDAY was SATURDAY and SATURDAY, commencing at 8 o'clock Tickets for the evening performances may be had at the office of the subscriber, No. 172 Centre-st.

A NEW and COMPLETE GAZETTEER of the UNITED STATES—edited by T. Baldwin and J. Thomas, M. D.—with a new and superb Map of the United States, engraved upon steel. In course of publication by LIPFENCOTT GRAMBO & Co., Philadelphia.

The publication of this, the most elaborate, thorough, and complete Gazetteer of the United States ever attempted, has been delayed by the absolute necessity of obtaining the full and complete Census returns, without which any work of the sort must totally fail to answer the purpose for which a Gazetteer is especially needed. The moment a publication of the Census returns is make by Congress—now looked for daily—this new work will be completed and issued.

The plan upon which this new Gazetteer is arranged will be found superior to any yet attempted, and perfectly adapted to the wants and convenience of those who consult its pages. This arrangement is strictly alphabetical, so that by once referring to any name, the reader will be put in possession of all the requisite facts, and not be under the necessity of referring to one page for a description of a place and to another for the statistics.

Besides containing everything of value that is to be found in any other Gazetteer, a very large amount of new and valuable information, received during the past five years, from over two thousand correspondents, in all parts of the country, will give to this new Gazetteer a value incomparably beyond any work of the same character. Especially will it be found original and valuable, as giving particular information about the newer portions of our country; and it will contain notices of some thousands of towas, to washipp and villages not named in any Gazetteer yet published.

MOTORPATHY.—We have closed our Institution at Rochester, New-York, until the 15th of April next, for the purpose of rest, and to attend to some particular cases, by request, in the City of New-York, where we shall remain for a few weeks. We shall introduce a system of Therapeutics, which is simple, rational, and reliable, based upon new pathological principles, by which the worst forms of Prolapsus Uteri and other functional and organic derangements are cured, without supporters or any of the usual treatment of the day. It controls with ease the most unmanageable and long-standing cases without pain or isconvenience. We have thoroughly tested the principles of Motorpathy, in a home institution, where some five thousand cases of female diseases have been cured, some in a few days, others in a few days, and is the only agent that will cure spinal difficulties, prevent abortion and obviates sterility.

Our object is not to enter into, but to introduce, our system into misce lancous practice for the public benefit. We shall give plain practical evidence of its utility, so that physicians and others can theroughly investigate and critically test its merits. In order to place it upon a firm basis, beyond all cavil, we shall make the cures necessary to establish its character, for which we shall make no charge and expect no fee.

Further information can be had gratuitously by communication, or by calling on rhyself or lady, at St. Nicholas Hotel, between 10 A. M. and 31 P. M.

Those destrous of securing its benefits should call immediately. A work on MOTORPATHY can be had at STRINGER & TOWNSENP'S, No. 22, and of JOHN WILEY, No. 167 Broadway, New York, or of the Arthor, at cost, 2.

The celebrated Greenwood Ore Bank belongs exclusively to this estate. This ore bank is well known as one

er ample for trip hammer; 12 to 15 first-class houses for hands.

The ceichrated Greenwood Ore Bank belongs exclusively to this estate. This ore bank is well known as one of the richest deposits of pipe ore, and most of she furnaces in the neighborhood have used it. By mixing it with the poorer ores of the vicinity, an A.N., I soft Charcoal Iron is produced—blooms made from which are now selling at \$25 per tun. Considerable revenue is new derived from ore leave granted on this bank to farmaces in the region. There are several other banks of ore of different varieties on and near to the lands of this property.

A Quarry of pure Limestone is on the premises, within 50 yards of the firmace.

There are 4,000 acres of land attached to this Estate, our bracing wood land, ore land, and some valuable farm land; a water right on the creek, between the formace and forge.

Both furnace and forge can be but into active working, in from eight to ten weeks, to produce a fine quality of from, in demand at high prices, and the production of which in other quarters, from various causes, must be limited.

It can be shown that, at the price asked for the whole property, it would clear likely in two years.
